THE RANDOMNESS OF LIFE

First Edition Design eBook Publishing, United States, 2012. Paperback. Book Condition: New. 213 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.Barranquitas, Venezuela is real. Nearly half of its population has inherited a malicious, mutated gene that causes a deadly neurological disease. Marina Valdesa, age 36, lies dying in a Casa Hogar Amor y Fe, or House of Love and Hope. Her nine children will be orphaned and may inherit the same fate as their mother. Daniel, a 39-year-old nursing home resident outside Chicago shares Marina s deadly diagnosis as researchers in academia and industry attempt relentlessly to discover a cure. Their mutual plight is one of mystery, devastation, hope and soul searching. The quality of their lives gets microscoped just like their diminishing brain cells. Marina s 18-year-old daughter Tula, escapes her homeland and accompanies an American volunteer to Chicago to participate in a clinical trial at a leading University Hospital. As Tula is introduced to the latest pharmaceutical attempts and research studies to eradicate the loss of our minds and bodily functions we learn through other characters that salvation arrives from unconditional love. In a world that advocates the benefits of Omega III, fish oil, salmon and blueberries, we cannot put off death. We learn to experience healing without a cure and relief in the face of suffering.
