Voting is fundamental to our democratic system, and federal law generally requires polling places for federal elections to be accessible to older voters and voters with physical disabilities. Following reports of problems encountered in the close 2000 presidential election with respect to voter registration lists, absentee ballots, ballot counting, and antiquated voting systems, the Help America Vote Act of 2002 (HAVA) was enacted. Among other provisions, HAVA includes requirements for the accessibility of voting systems, effective January 1, 2006. In the past, GAO has published several reports on issues related to voting access for older voters. Our prior work, including on-site inspections of a national sample of polling places in election year 2000, a comprehensive review of the election system in 2004, and a review of transportation issues facing seniors, has identified a number of potential barriers to voting for older Americans, as well as accommodations and progress in a number of areas. Drawing from prior work, GAO's testimony will focus on (1) a variety of factors that affect the ability of older voters to travel to polling places, cast their votes in the voting room, or avail themselves of alternative voting provisions and (2) trends and changes regarding the accessibility of polling places and alternative voting methods. This item ships from La Vergne, TN. Paperback.
